

SofIMer®

FREE YOUR BREATH

Made in
GREECE

SofiMer® is a hypertonic sea water solution (2.6% NaCl) rich in the sea's naturally occurring mineral salts and trace elements. It relieves nasal congestion naturally (osmosis mechanism) and cleanses the nasal cavities by washing-out excess mucus and mucus-trapped impurities such as pathogens, allergens and pollutants, helping to keep the nose healthy and prevent secondary ENT infections. It also moistens the nasal mucosa when dry.

Pump Spray

0,9% NaCl
30 ml

SoFiMer®

MINI

Sofimer® Mini Isotonic Nasal Spray is an isotonic sea water solution (0.9% NaCl) naturally abundant in the sea's mineral salts and trace elements. It cleanses the nasal cavities, washing out excess mucus and mucus-trapped impurities such as pathogens, allergens, and pollutants, helping to keep the nose healthy and prevent secondary ENT infections. **Sofimer® Mini** Isotonic nasal spray helps relieve nasal symptoms such as obstruction and mucus discharge caused by e.g., the common cold and allergies, helping to improve nasal breathing. It also moistens the nasal mucosa in dry conditions.

INDICATIONS

- For daily hygiene of the nasal passages to remove mucus, pathogens (e.g. viruses, bacteria), allergens (e.g. pollen, house allergens), pollutants (e.g. air pollution, tobacco), dust and other potentially harmful particles (mechanical action).

- To relieve nasal symptoms (e.g., obstruction, mucus discharge) caused by, for example, the common cold and allergies, rhinosinusitis, or after endonasal surgery.
- To moisten the nasal mucosa and relieve dryness.

Sofimer® Nasal Spray can also be used in combination with medicated topical decongestants, preferably immediately prior to their application. Suitable during pregnancy and breastfeeding.

COMPOSITION

Sea water 28%, purified water 72% (1 ml of solution contains 0.28 ml of sea water), equivalent to 0.9%

Sodium chloride (NaCl) free from preservatives or other chemical additives. All natural.

DESCRIPTION

30 ml pump spray, suitable for everyone, including babies.

SoFiMer®

MINI

RECOMMENDED DOSAGE

1-3 sprays in each nostril, 3-5 times daily.

ADVERSE REACTIONS

A stinging feeling or transitory irritation may be experienced at the beginning.

PRECAUTIONS

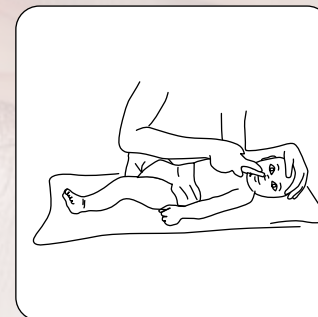

If you are allergic to seawater, avoid using it. For nasal use only. Do not use it after the expiration date. Keep out of children's reach.

STORAGE CONDITIONS

Keep it below 25 degrees Celsius. Protect it from sunlight and sources of heat.

INSTRUCTIONS FOR USE

Babies & toddlers: Remove the protective over cap. Lay the baby on its back, turning and holding its head to one side. Gently insert the nozzle into the upper nostril and press firmly to release a sufficient quantity of solution. Repeat on the opposite side. Return the baby to an upright position, allow the solution to drain, and wipe the nose. Wash the nasal applicator with warm water after each use. Do not share the device with anyone else, as it may spread infection.

SofiMer®

FAMILY

SofiMer® 2.6% Nasal Spray is a hypertonic seawater solution (2.6% NaCl) rich in the sea's naturally occurring mineral salts and trace elements. It relieves nasal congestion naturally (osmosis mechanism) and cleanses the nasal cavities by washing out excess mucus and mucus-trapped impurities such as pathogens, allergens, and pollutants, helping to keep the nose healthy and prevent secondary ENT infections. It also moistens the nasal mucosa when dry.

INDICATIONS

- For the natural relief of nasal congestion caused by illnesses such as the common cold, nasal allergies, and rhinosinusitis.
- To cleanse the nasal passages and help remove mucus, pathogens (e.g. viruses, bacteria), allergens (e.g. pollen, house allergens), pollutants (e.g. air pollution, tobacco), dust and other potentially harmful particles (mechanical action).

- To help promote recovery following endonasal surgery,
- To improve the efficacy of medicated decongestants and reduce their use,
- To moisten the nasal mucosa, relieving dryness

SofiMer® 2.6% Nasal Spray can also be used in combination with medicated topical decongestants, preferably immediately prior to their application, for optimal treatment efficacy. Suitable during pregnancy and breastfeeding.

COMPOSITION

Sea water 80%, purified water 20% (1 ml of solution contains 0.80 ml of sea water), equivalent to 2.6% Sodium Chloride. Free from preservatives or other chemical additives. All natural. Inert propellant gas (nitrogen), not in contact with the solution.

SoFiMer®

FAMILY
